

Bayern®

Ozone Solutions

Crystal Clear and Healthier Water

Ozone (O₃) is recognized as the leading technology for chemical zero-waste of water purification and removal of natural and manmade water contaminants today.

Bayern® 's ozone combines an automatic programmed electronic ballast, venture injector and VUV ultraviolet technology to generate higher concentration and stable ozone generation without the corrosive by-product of traditional corona discharge machine. This new technology produces reliable ozone output for treating swimming pool and water supply with crystal clear and healthier result.

Features

- High Frequency Electronic Ballast, 230V/50Hz
- Patented VUV Ultraviolet Lamp Module
- Dynamic Venture Injector and Static Mixer for optimum ozone and water mixing
- Ozone resistant Check Valve and bypass installation kit
- Rugged electrical panel with ozone indicator
- Size: (12cmx20cmx55cm) or (16cmx20cmx55cm)

Optional

Counter Flow Pipes, Degassing Column and Air Relief Valve to remove excess air or ozone from system.

BAYERN MODEL	POOL VOLUME (M3)	FILTRATION (Hours)
BZ-1200	up to 30	8 to 12
BZ-1400	30 to 60	8 to 12
BZ-1600	60 to 100	8 to 12
BZ-2400	100 to 200	10 to 12
BZ-3200	200 to 300	10 to 12

Bayern® Ozone Solutions for :

- Private and Commercial Pool and Spa
- Aquaculture and Fish Pond
- Private and Industrial Water Treatments
- Cooling Tower and Agriculture Water
