

FRP Sand Filter

Efficient Filtration Technology

The FILTER made in Indonesia

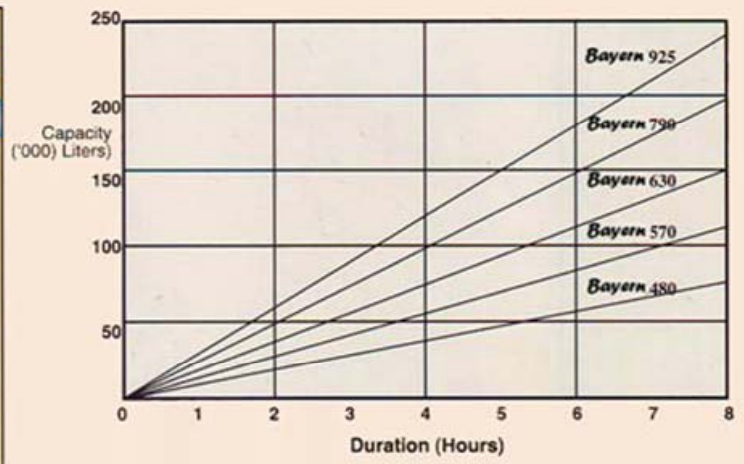

Stainless Steel Neck

Combining the latest advanced of fiberglass technology with durable 6-way multiport valve, we developed the ultimate High Rate Sand Filter for filtration system of swimming pool, spa, aquaculture, fountains, water park, etc.

This sand filter is manufactured from high grade Fiberglass Reinforced Plastic (FRP) for maximum strength and protection against abrasion and corrosive. The advanced design of the under drain lateral system for this sand filter allows the use of fine grade silica sand, ensuring crystal clear water result.

MODEL	FILTER AREA	MAX SAND	PUMP SIZE	FLOW	VALVE PORT	TANK DIAMETER
	[M2]	[Kgs]	Min - Max	LPM	Inch mm	[mm]
Bayern-480	0,17	75	1/2 - 3/4 HP	145	1 1/2" 40	480
Bayern-570	0,29	125	3/4 - 1 HP	240	1 1/2" 40	570
Bayern-630	0,36	150	1 - 1 1/2 HP	320	1 1/2" 40	630
Bayern-790	0,45	230	1 1/2 - 2 HP	400	2" 50	790
Bayern-925	0,61	320	2 - 3 HP	510	2" 50	925
